

STANRAIL CORPORATION

Dear Rick,

I just wanted to send you a note thanking you and RMTS for coming up to plate when we really needed it. Your turn around time on the new set of roll form tooling was incredible. To add your hands on service for set up got us running product and we made our deadline to our customer.

Also, your quality and “Super Roll” process was the best we have seen. What I like is you guys do exactly what you say you are going to do.

Thanks to the people at RMTS for all your hard work.

Sincerely,

Chris Hepburn
Senior Engineer
Stan Rail Corporation
