

STATE OF THE ART, ROLL FORMING & TUBE TRY-OUT & TEST FACILITY

We have created a custom **state of the art facility** for the testing, try-out and short run **roll forming products**.

Equipment includes: Yoder 22 pass roll former with cut out and pre-notch press along with a complete quick change base and stands for faster change over.

M-2-18 stand with side roll stands with cut off and pre-notch. Three un-coilers capable of 10,000 pound coils.

Our equipment can test and run shaft diameters from 1 1/2 – 4 inches. No job to small or large. **We have the only owned FINITE ELEMENT ANALYSIS computer software in house** for the ultimate analysis of roll forming.

Roll Machining Technologies and Solutions is a Chicago IL, USA based tube, pipe and roll form manufacturer and designer of roll tooling and auxiliary equipment. Home of the **"SuperRoll"**

The Pipeline is published 4 times a year by *RMTS* If you would like to be on our mailing list or submit a Pipeline Joke, Pipeline Tip, new products, industry news or anything that's relative to the tube, pipe and roll form industry, please write us and we will print your information and name with credits. Once a year, we will pick a winner for each category. Please call us the 8th week of every quarter to be included in *The Pipeline*.
