New V.P. of Engineering Press Release

RMTS Announces the Dr. is IN!

Romeoville, IL, April 27, 2015: Dr. Yun-Jiang (George) Li joins the RMTS team
Romeoville, IL • April 20, 2015- Roll Machining Technologies and Solutions is proud to announce the newest edition to the RMTS team, Dr. Yun-Jiang (George) Li.

Dr. Li adds even more depth to RMTS by bringing more than 30 years of experience to our already award winning engineering team. Dr. Li earned his PHD in Mechanical Engineering from Yanshan University in China. In addition to his many years of industrial experience, he also spent 12 years at the Steel Tube Institute. In 1997 he joined forces with Joe Olson as the lead tube & pipe design engineer for a Midwest roll tooling company. In 2015, Joe and Dr. Li have once again reunited at RMTS to expand our already innovative product line and give our customers the longest lasting roll along with the best design in the industry. His extensive training and education brings new dimensions to engineering design to hundreds of companies around the globe. Dr. Li compliments RMTS' international strategy with his ability to speak multiple languages. Over the past 20 years he has published many articles and has given many speeches related to his engineering expertise. In 2002 he was awarded the FMA/TPA Industry Outstanding Contribution Award.

Dr. Li also brings an unparalleled knowledge of FEA simulation to RMTS. This design process, coupled with the industry leading proprietary Super Roll process, makes RMTS' tooling design and manufacturing second to no one.
